Notes to Condensed Interim Consolidated Financial Statements

(Unaudited - Expressed in U.S. Dollars)

1. Nature of operations and going concern

Atlanta Gold Inc. (the "Company") was incorporated on March 6, 1985 under the laws of British Columbia and continued into Ontario on March 15, 2000. The Company is domiciled in Canada and its registered head office is 5600 – First Canadian Place, 100 King Street West, Toronto, Ontario, M5X 1C9. Its common shares are listed on the TSX Venture Exchange trading under the symbol "ATG", and on the OTC Markets Group Inc. OTCQX International tier trading under the symbol "ATLDF".

The Company's primary property is its Atlanta Gold Property ("Atlanta"), located in Idaho, U.S.A. Atlanta is in the advanced exploration phase. The Company's other properties including the diamond properties located on Baffin Island and its Québec gold properties are all in the exploration phase. No further work is planned in these areas and as a result the carrying values were written off.

Recoverability of exploration and development expenditures is dependent upon the further development of economically recoverable reserves, the preservation of the Company's interest in the underlying mineral claims, its ability to obtain necessary financing, obtain government approval and attain profitable production, or alternatively, upon the Company's ability to dispose of its interest on an advantageous basis. Changes in future conditions could require material write downs of the carrying amounts of deferred exploration expenditures.

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to a going concern, which assumes that the Company will continue its operations for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business as they become due. While the unaudited condensed interim consolidated financial statements have been prepared on the basis of accounting principles applicable to a going concern, the Company is not considered to be in operation, and thus, has not yet generated any revenues or cash flows from operations. As at March 31, 2012, the Company's current liabilities exceeded its current assets by \$1,203,325, and it has an accumulated deficit of \$59,428,625 and reported a loss of \$384,616 for the three months ended March 31, 2012. These conditions indicate the existence of material uncertainties that may cast significant doubt about the Company's ability to continue as a going concern and, accordingly, the ultimate appropriateness of the use of accounting principles applicable to a going concern. In view of these circumstances, the Company requires additional financings to complete its planned exploration and development program on Atlanta, and will continue to explore financing alternatives to raise capital. There can be no assurance that the Company will be able to obtain adequate financing in the future or that such financing will be available on acceptable terms. The Company's ability to continue as a going concern depends on obtaining funding and achieving profitable operations.

Nevertheless, it is not possible to determine with any certainty the success of these initiatives. These unaudited condensed interim consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary were the going concern assumption inappropriate. These adjustments could be material.

2. Basis of preparation and adoption of IFRS

(i) Basis of presentation and measurement

The unaudited condensed interim consolidated financial statements have been prepared in compliance with IFRS as issued by the International Accounting Standards Board ("IASB") including IAS34 Interim Financial Reporting. The unaudited condensed interim consolidated financial statements should be read in conjunction with the Company's annual consolidated financial statements for the year ended December 31, 2011 which have been prepared in accordance with IFRS as issued by the IASB. The accounting policies and methods adopted of application adopted are consistent with those disclosed in Note 3 to the Company's consolidated financial statements for the year ended December 31, 2011.

These unaudited condensed interim consolidated financial statements were approved by the board of directors for issue on May 23, 2012.

(ii) Critical accounting estimates and judgments

Areas of critical accounting estimates and judgments that have the most significant effect on the amounts recognized in the unaudited condensed interim consolidated financial statements are disclosed in Note 3 of the Company's consolidated financial statements as at and for the year ended December 31, 2011.

Atlanta Gold Property, Idaho, U.S.A.

Atlanta was initially held as a joint venture between AGC, with an 80% interest and Canadian American Mining Company, LLC ("CAMC") with a 20% participating interest. CAMC subsequently agreed to transfer its 20% participating interest in the joint venture to AGC, and retain a 2% NSR royalty (the "Royalty") on Atlanta. In September 2009, the Company purchased one-half of the Royalty (1%) from CAMC by issuing 5.75 million common shares of the Company, which were valued at \$1,035,000, and agreeing to pay an additional \$200,000 to CAMC payable over 17 months. The final payment to complete the purchase of one-half of the Royalty (1%) was completed in January 2011.

3. Exploration and evaluation assets (continued)

Atlanta Gold Property, Idaho, U.S.A. (continued)

Atlanta consists of owned and leased patented and unpatented claims, as described below.

(i) Monarch Greenback LLC

On April 28, 2011, AGC exercised its option to purchase a 100% interest in a property comprised of 33 mining claims totalling approximately 430 acres (the "Monarch Property") from Monarch Greenback LLC ("Monarch") for \$3,075,000. The purchase of the Monarch Property was completed on June 8, 2011. To assist in the financing of the purchase, the Company borrowed \$3 million by way of a secured, non-interest bearing bridge loan (the "Bridge Loan") from Concept Capital Management Ltd. ("CCM"), which was subsequently repaid by the issuance by the Company of a 6% convertible debenture in the principal amount of C\$3 million (the "Debenture"). Terms of the Bridge Loan and the Debenture are described in note 5(a).

Upon AGC exercising its option to purchase, rental payments to Monarch totalling \$290,000 per annum on the Monarch Property were terminated. Monarch retained a variable net smelter return royalty, varying from 0.5% to a maximum rate of 3.5% for gold prices exceeding US\$665 per ounce. As at March 31, 2012, advance royalty payments of \$1,500,000 had been paid by AGC to Monarch and will be deducted from future royalty payments to Monarch.

(ii). Hill & Davis

The Hill & Davis patented mining claim was purchased for \$139,500 in five annual payments, pursuant to an amended lease-purchase option agreement with Born, Johns and Rhees, of which the final option payment of \$30,975 (\$29,500 plus accrued simple interest of \$1,475 @ 5% per year) was made in December 2010.

(iii) F. C. Gardner

AGC leases 31 unpatented lode claims pursuant to a lease agreement, as amended, with F. C. Gardner. The lease expires on April 18, 2016. Lease payments are currently \$10,000 per year and are treated as minimum annual advance royalties. If these claims go into commercial production before expiry of the lease, then the annual minimum advance royalty will be \$20,000. If this property is mined, F. Gardner will receive a 6% NSR, from which all advance royalty payments shall be deducted. As at March 31, 2012 advance royalty payments of \$178,500 have been made and will be deducted from any future royalty payments to F. Gardner.

(iv). Hollenbeck Properties LLC

AGC leases 9 patented and 5 unpatented claims pursuant to a lease agreement with Hollenbeck Properties LLC. The lease expires November 14, 2012 and is renewable year to year thereafter at an amount to be negotiated. Lease payments of \$10,000 per year are treated as minimum advance royalties. If this property goes into commercial production, then the annual minimum advance royalty will be \$20,000. If it is mined, Hollenbeck will receive a 4.25% NSR, from which all advance royalty payments shall be deducted. As at March 31, 2012, advance royalty payments of \$292,500 had been paid and will be deducted from any future royalty payments to Hollenbeck.

Annual rental and advance royalty payments are required to keep lease agreements in good standing for the properties that collectively comprise the Property. Advance royalty payments to lessors are credited against future royalties payable on production. As at March 31, 2012, advance royalty payments totalling \$2,174,500 will be deducted from any future royalty payments to lessors / royalty holders.

All depreciation charges during the three months ended March 31, 2012 and 2011 were capitalized into exploration and evaluation assets.

5. Convertible debenture and promissory notes

a) Convertible debenture

On June 8, 2011, AGC completed the purchase of a portion of the mining property for \$3,075,000. To assist in financing the purchase, the Company borrowed \$3 million by way of a secured non-interest bearing loan (the Loan). The Loan was due in January 2012, and was replaced on December 14, 2011 by the issuance to the lender, Concept Capital Management Ltd. (CCM) of a 6% convertible debenture in the principal amount of C\$3 million and warrants to purchase 30 million common shares of the Company, exercisable for five years at a price of C\$0.11 per share, as well as a payment of \$100,000 resulting from fluctuations in the U.S. and Canadian dollar exchange rate.

The debenture matures on December 15, 2016, bears interest of 6% per annum from July 11, 2011, and is convertible in whole or in part at the election of CCM into common shares of the Company at a conversion price of C\$0.10 per share (the Conversion Price). Interest on the debenture is payable annually and, at the election of the Company, may be paid in cash or, subject to the approval of the TSX Venture Exchange (the Exchange), in common shares at an issue price per share equal to the average of the closing prices of the Company's common shares on the Exchange for the 20 trading days ending five business days prior to the interest payment date or at such higher issue price as may be required by the policies of the Exchange. If and for so long as an event of default occurs, interest will be payable at the rate of 8.5% per annum.

The debenture is subordinated in right of payment of principal and interest to all secured debt of the Company, whether outstanding on or after the date of issue of the debenture. AGC has provided a guarantee of the debenture, with recourse under the guarantee limited to a mortgage on the Property. The Company will not permit AGC to incur additional secured debt in excess of \$10 million (subject to certain exceptions) without the prior consent of CCM, such consent not to be unreasonably withheld, conditioned or delayed.

After the first anniversary of the issue date, the Company will have the right to redeem all or part of the debenture if the closing price of the Company's common shares on the Exchange on each of the 27 consecutive trading days prior to notice of redemption being provided is not less than 3.5 times the Conversion Price. On redemption, the Company will be required to pay the principal and accrued interest thereon, plus a redemption fee declining from 6%, to 4%, to 2% if redeemed before the second, third or fourth anniversaries, respectively, of the issue date. CCM will have the right to require the Company to redeem the debenture at any time after the third anniversary of the issue date and at any time following a change of control or merger transaction. Merger means any transaction (whether by way of consolidation, amalgamation, merger, transfer, sale or lease) whereby all or substantially all of the Company's assets would become the property of any other person or in the case of a consolidation, amalgamation or merger, of the continuing corporation or other entity resulting therefrom.

5. Convertible debenture and promissory notes (continued)

a) Convertible debenture (continued)

CCM has received an option to purchase an aggregate of 4,000 troy ounces of gold produced from the Atlanta Project at a price of US\$1,400 per troy ounce. This option will vest after AGC has completed production from the Atlanta Project of 20,000 troy ounces of gold and will expire on the fifth anniversary following the date of vesting.

b) Promissory note

On August 4, 2011, Atlanta Gold Corporation financed the acquisition of land by a combination of cash, equity and a three year promissory note secured by a mortgage on the property in the amount of \$425,000 bearing interest of 7% per annum until its maturity in 2014, with unpaid amounts following the maturity date bearing interest of 10% per annum. The promissory note was carried at its initial fair value which was subsequently measured at its amortized cost as of March 31, 2012. The interest is payable on a monthly basis and was capitalized as exploration and evaluation assets.

The Company did not grant any stock options during the three months ended March 31, 2012 and 2011.

7. Loss per share

Basic loss per share

The calculation of basic loss per share at March 31, 2012 was based on the loss attributable to common shareholders of \$384,616 (March 31, 2011 – loss of \$418,389), and a weighted average number of common shares outstanding of 193,890,039 (2010 - 144,858,934).

Diluted loss per share

Stock options and warrants have not been included in the calculation of diluted loss per share for the three months ended March 31, 2012 and March 31, 2011, as they are anti-dilutive.

The average market value of the Company's shares for purposes of calculating the dilutive effect of share options and warrants was based on quoted market prices for the period during which the options were outstanding.

8. Related party transactions

The remuneration of key management personnel during the three months ended March 31, 2012 was \$119,913 (March 31, 2011 - \$169,349). Among the shareholders loans of \$255,200 (March 31, 2011 - nil), \$205,200 was owing to various directors and officers of the Company. \$6,351 of stock-based compensation paid to directors and officers was recorded in the unaudited condensed interim consolidated statements of loss and comprehensive loss for the three months ended March 31, 2012 (March 31, 2011 - \$27,383) and \$3,705 was included in exploration and evaluation assets as at March 31, 2012 (March 31, 2011 - \$11,115). All transactions with related parties are in the normal course of business and are measured at the fair value.

9. Commitments and contingencies

In April 2011, the Idaho Conservation League (“ICL”) and the Northwest Environmental Defense Center (“NEDC”), two environmental interest groups, filed a complaint in the United States District Court for the State of Idaho against AGC alleging violations of the Clean Water Act with respect to the operation by AGC of the pilot water treatment facility, and water discharged into Montezuma Creek from property which the Company then leased.

On January 9, 2012 the Court granted a motion for partial summary judgment sought by ICL and NEDC. In its findings, the Court did not conclude that AGC caused pollutants to be discharged. The Court found that the levels of arsenic in the water discharge violated the effluent limit contained in the permit held by AGC. Any penalties to be assessed, which could include fines and/or declaratory relief requiring or prohibiting certain activities of AGC, will be considered at the next stage of the Court proceedings. A decision of the Court in these proceedings is expected to be received late in the second quarter or early in the third quarter of 2012. The likely extent and nature of any penalties is not determinable at this time.

The Company records the asset retirement obligation relating to the reclamation of the property in Nunavut in value of \$200,000 (December 31, 2011 - \$200,000). The amount of the obligation is the best estimate of the costs expected to fulfill the obligation resulting from the conditions of the permit.

10. Subsequent events

On May 23, 2012, the Company issued 4,000,000 common shares to settle a finder's fee of C\$200,000 incurred in connection with the issuance by the Company of the C\$3 million principal amount convertible debenture.
